

# FINAL BUSINESS INSIGHTS REPORT

## E-Commerce Sales Dashboard Analysis

### Executive Summary

This report summarizes the key findings derived from data cleaning, SQL analysis, and Power BI dashboard development. The objective is to identify high-performing markets, profitable categories, customer behaviour patterns, and opportunities for business growth.

### Key Business Insights

1. **APAC is the highest revenue-generating market**, contributing approximately 3.58M in sales and outperforming all other markets.
2. **Central Region leads overall sales performance**, making it the strongest regional contributor to business revenue.
3. **Technology is the most profitable category**, generating significantly higher profit than Furniture and Office Supplies.
4. **Office Supplies shows lower profitability**, indicating opportunities for pricing and margin improvement.
5. **Furniture receives the highest average discounts**, which may be reducing overall profitability.
6. **Copiers and Phones are the best-performing sub-categories**, contributing the largest share of total profit.
7. **Tables generate negative profit**, suggesting the need for cost, pricing, or discount review.
8. **Standard Class is the preferred shipping mode**, accounting for the majority of customer orders.
9. **Sales peak during November and December**, indicating strong seasonal demand and year-end purchasing behaviour.
10. **A significant number of orders are loss-making**, highlighting the importance of optimizing discounts and operational costs.

### Strategic Recommendations

- Increase focus on APAC and high-performing regions to maximize revenue growth.
- Expand investment in Technology, Copiers, and other high-profit product lines.
- Review pricing and discount policies for Furniture and loss-making products.
- Strengthen customer retention strategies for top-performing customers.
- Prepare inventory and marketing campaigns around peak year-end sales periods.

### Conclusion

The analysis indicates strong growth opportunities in profitable markets, regions, and product categories. By focusing on high-performing segments and improving low-profit areas, the business can achieve sustainable revenue growth and improved profitability.
